

Statement of Bernstein Litowitz Berger & Grossmann LLP

Any negative assertions against Bruce Bernstein were made in the context of litigation and did not take into account that, while at the firm, he worked on very complicated cases and was intelligent, dedicated and maintained the highest degree of integrity. Moreover, Defendants' negative assertions concerning adjustments to Plaintiff's base salary did not take into account that, through bonus incentives tied to his performance, Plaintiff could have received significant increases in his overall compensation in future years.
